

Affordable CTP System by EZ Hi Tech

CRON - ECRM[®]

CTP Model 26H Fully Automated Package

THE PERFECT CTP FOR THE SMALL FORMAT PRINTER - AT AN UNBEATABLE PRICE!

Cost Effective • Add-On Solutions • New Opportunities with EZ Hi Tech International Services, Inc.

This complete Eco-friendly package includes the perfect 2-page CTP solution: the CRON CTP Model 26H, the compact all-in-one CTP, auto feeder, imager, punch and conveyor. Featuring comprehensive automation options, this system offers fast, highly cost-efficient UV plate production and the most convenient footprint for small format printers available today.

The CRON-ECRM CTP bundle includes:

- The CRON CTP model 26H, which is a fully automated platesetter that is the most compact and eco-friendly solution on the market today.
- The Blackwood Emerald UV Low Chemistry Plates designed to not only streamline the production process, but they also reduce costs and support a higher level of environmental responsibility.
- The WPT70 Wash-Out Unit is the perfect complement to round out the package, using non-toxic and non-corrosive, phosphate-free and low alkaline developing solution that is similar in composition to laundry powder.

Any printer looking to increase efficiency and profits from their offset workflows should absolutely investigate this offering.
